Bridges Out of Poverty *Day Two* Training

**United Way of Northern Nevada
639 Isbell Road, Suite 460
Reno, NV 89509**

April 22nd, 8:30 to 3:30

Bridges to a Thriving Nevada, an initiative of Opportunity Alliance Nevada addresses economic instability by examining the barriers and resources individuals encounter. We do this by facilitating a number of workshops designed to bring businesses, education, health and human services, and justice systems together to ask if everyone in our community is afforded a 'Fair Shot': safe and affordable housing, access to health care and education, a well-paying job and a means to achieve it. Bridges opens up conversations with and between service providers and businesses whose daily work connects them with the lives of people in poverty.

Bridges out of Poverty Day Two: Now that you have completed Day One of this workshop where you explored a wide range of issues around poverty like the following key points: Schools and businesses operate from middle-class norms not always understood across class and the people most affected by poverty must be included in the creation of an accurate model of poverty, let's participate in Day Two---In Bridges Day 2, workshop participants learn how to implement Bridges' constructs and tools in their workplaces and in the community with an interactive training supplement workbook.

The cost for Day Two including the book, *Bridges Out of Poverty Training Supplement*, and lunch is \$99.00

If you would like to learn more about the training class, contact Tracy Sherwood at 775-333-8274 or tracy@opportunityalliancenv.org
